

## Your Personal End Game

Your end-game is your roadmap to victory. It is your visual aid that you can use to make sure you are on the right track. How can you know where you are going if you do not have a map? How can you know if you are on-course or off-track to your dreams and goals if you do not have something to measure success or failure? Your end-game is your compass and your self-created instrument that can keep you on task, and on target.

Take a moment and answer the questions below. Take your time and really put some thought into your answers. Remember, whatever you put on the paper can be yours, so dream big, because the sky is the limit.
